- Planning Studies
- Flood Plain Management
- Ecosystem Assessments

PARTNERING WITH THE CORPS OF ENGINEERS

Planning Assistance to States (PAS)

- Provides technical assistance and planning for water resource needs
- Study Only

Continuing Authorities Program (CAP)

- Study, Design, and Construction for projects up to about \$15M
- Can address flooding, erosion, navigation improvements

Tribal Partnership Program (TPP)

- Focus on supporting tribes
- Can be small technical assistance
- Can be large scale projects

Water supply dam, Kake, Alaska

CONSIDERATIONS

Project Justification

- Benefits Must Outweigh Costs
- Monetary
- Cultural Significance
- Environmental

Cost Sharing

- Studies are typically 50%-50% share
- Construction is typically 10% - 35% share
- Waivers of some cost share for tribes
- Waivers for economically disadvantaged communities

How can my community get assistance?

- Please reach out to our Civil Works team and they will discuss your water resource needs
- Contact Bruce Sexauer, Chief Civil Works Project Management Branch
- (907) 753-5619 or email bruce.r.sexauer@usace.army.mil
